Rain Date: February 27

Saturday February 20
2:00PM – 4:00PM

Meet at: Romancing the Bean
3413 W Magnolia Blvd.

Rain Date: February 27

The City of Burbank Community Development Department is currently reviewing the City's single-family residential design standards and we need your help! We hope to ensure that new development maintains the predominant neighborhood character while allowing for an appropriate level of flexibility for property owners. We will be conducting five guided "walk-shops" (walking workshops through neighborhoods) in different locations throughout the City to solicit residents' input. Please wear comfortable shoes and bring along a smart phone if you have one. We'll be using an interactive application to let participants share their ideas, photos and comments online. Printed surveys will also be available.

Can't make the walk-shops? No problem.

You can participate online and even create your OWN walk-shop for your neighborhood using our interactive tool.

For more information visit our project website at www.BurbankNeighborhoodDesign.com
